

## Curriculum Intent:

To equip children with knowledge about places, people, resources and both natural and human environments, together with a deep understanding of

Subject	Term	Unit
Geography	Autumn	Continents
Prior knowledge Building on knowledge and skills		National Curriculum Focus
<p>The UK is in the Northern Hemisphere and is surrounded by the North Sea, the Irish Sea and the English Channel.</p> <p>The UK is 4 countries England, Wales, Scotland Northern Ireland .Know the similarities between the UK's constituent countries , including flags ,language, monarchy and government.</p> <p>Know the differences between the UK's constituent countries such as population, patron saints and emblems.</p>		Name and locate the world's seven continents and five oceans.

<b>What?</b>	A continent is a large solid area of land. Earth has seven continents which are made up of countries.
<b>Why?</b>	To understand about the different continents and oceans helps children build a better understanding about the world around them.
<b>How?</b>	This unit introduces pupils to places and cultures beyond their everyday experiences and teaches them their role as responsible global citizens.

### Key Questions

1. How can the world be represented in different ways?
2. What is a continent?
3. What are the world's seven continents and where are they located?
4. How are the continents of the world different?
5. What are the world's five oceans and where are they located?
6. How are oceans different from seas?

### Key vocabulary

Atlas	A book containing maps of the Earth, either in parts or altogether	Ocean	Pictures that show features of the Earth. Maps are presented on flat pieces of paper or on a screen.
Continent	Large area of land on the surface of the Earth.	Submerged	Pictures that show features of the Earth. Maps are presented on flat pieces of paper or on a screen.
Globe	A sphere which shows the true shape of the Earth as well as its surface	Surface	The outside part of something that you can see.
Map	Pictures that show features of the Earth. Maps are presented on flat pieces of paper or on a screen.	Sea	A part of the ocean which is closed in by land.

### Key learning:

Objective	Learning
Can I understand the world can be represented in many different ways ?	<p>Use pictures from space via computer.</p> <p>Know there are different ways of representing the Earth. Globes, atlases and maps can show us the Earth in parts or altogether.</p>

	Why do we have so many different ways to represent the world? When would we use these different ways?
Can I explain and show a continent on a globe or world map?	Continents are very large areas of land usually made up of lots of different countries. Any land submerged by water is known as the sea or the ocean.
Can I name the world's seven continents and where are they located?	The surface of the Earth is divided up into different continents, seas and oceans. There are 7 continents: Africa, Antarctica, Asia, Australia, Europe, North America and South America. The UK is in the continent of Europe. Each continent is a different size and is made up of different physical features.
Can I say how the continents of the world are different?	Australia is a country as well as a continent, whilst Antarctica has no countries or people living there because of its extreme temperature.
Can I name the world's five oceans and say where are they located?	There are 5 oceans: Arctic Ocean, Atlantic Ocean, Indian Ocean, Pacific Ocean and Southern Ocean.
Can I explain the difference between an ocean or a sea?	The difference between an ocean and a sea is that a sea is surrounded by land which closes it in.
