

Year 2 Monthly Updates

Welcome to our first monthly class update, this newsletter will give you an additional overview of what our pupils have been learning in May.

Please use this information to encourage your child to remember more by talking about their learning at home.

May has been a fantastic month for Year 2! We have been super learners and using lots of our skills builders, Mrs Coleman is very proud!

In Geography, our topic is Location, Location. We have explored our local area on Google Maps and even around our school grounds. We have looked at aerial photos and maps and ventured outside to see what this looks like on ground level. Next term, we will be using compasses and designing a map of our school with a key! Look out for this on our next newsletter.

In Science, our topic is Living Things and their habitats. We are awesome scientists and have explored habitats and micro-habitats. We have learnt about living things, things that are not living and things that have never been alive.

In Art, we have been inspired by our artist Andy Warhol. His style is Pop Art and we've been studying his work to create our own pieces. We have practised lots of techniques using primary and secondary colours, various brush techniques and printing.

*We have also enjoyed VE Day celebrations, joining David Walliams to hear snippets from his new book, *Mughi Day* for donations to our local foodbank and a visit from the nurse. What a great month we've had!*

Reminders

Please remember to read with your child weekly and fill in reading diaries. There will also be spellings for your child to practise.

Please remember to complete homework with your child, this will really help to support the work we are doing in school. 😊
