HURST HILL PRIMARY SCHOOL

Learn more, remember more

Year 4 classes Monthly Updates

Welcome to our first monthly class update, this newsletter will give you an additional overview of what our pupils have been learning in May.

Please use this information to encourage your child to remember more by talking about their learning at home.

In History we have been marching through the topic of 'The Romans'. We looked at what the Romans accomplished, how they lived and explored the many things that still benefit us today thanks to their influence on Britain.

In P.E. we have been developing our gross motor skills as we broke down the techniques used in cricket. We discovered that our children have complimentary skillsets; some of them were very observant and receptive, which led to a vast improvement with their bowling, others exhibited a firm comprehension of how to catch safely. Our pupils have enhanced their power and accuracy when throwing, as well as the speed that they are traveling around.

It's safe to say that I am now very excited to see their performances during the upcoming sports day.

Our science topic has been very exciting.

We have completed our electricity topic and delved into the wonders of 'states of matter'. For this we had a fantastic trip to Birmingham's Thinktank. Children were so engaged with the learning that took place while we were, they especially enjoyed the science garden and the workshop session that we were able to take part in.

Whilst on our trip, as well as enjoying some hands on learning all children had exemplary behaviour, they are a credit to us all. Hopefully over these coming weeks the inquisitive minds that populate our classroom will have more curious questions that spill out of the classroom and into their everyday lives.

Reminders

**Upcoming events and reminders
e.g. sports day, class
assemblies, INSPIRE days,
home reading, homework etc.**

Liam jury visit (P.E. kit) – 27.06.25

Transition meetings – 11.07.25

Sports day – 11.07.25
