Know more, remember more

Year 3 Class Monthly Updates

Welcome to our monthly class update, this newsletter will give you an additional overview of what our pupils have been learning in June and July.

Please use this information to encourage your child to remember more by talking about their learning at home.

June has been a wonderfully busy and creative month in Year 3! Here's a little round-up of all the exciting learning we've been doing:

Science – Light and Shadows

This month in Science, we've been learning all about **light and shadows**. The children explored how shadows are formed and how they change throughout the day. We had a fun outdoor session where the class went onto the playground to **draw each other's shadows** and observe how they moved depending on the sun's position. It was a great way to combine learning with hands-on discovery!

Art – Sculpture Projects

In Art, Year 3 have been working hard on their **sculpture projects**. They used a range of materials to design and create their very own unique sculptures. The children showed fantastic creativity and focus—and we hope you enjoyed seeing their final pieces when they brought them home earlier this week. What a talented group of artists we have!

History – The Black Country and Our Local Area

Our History lessons have taken us on a journey through time as we explored **The Black Country and our local history**. We've learned about the important role our area played in the Industrial Revolution and how it has changed over time. The children were especially interested in comparing life in the past with their lives today—it really brought history to life!

Thank you, as always, for your continued support. We're looking forward to finishing the term with even more learning and fun!

Reminders

Final day – 18/7/25 school closes at 2pm

2nd September – Autumn Term begins
