

HURST HILL PRIMARY

Dear Parents

We have exciting news to share regarding our forest school.

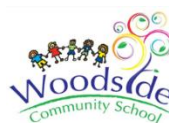

We have just received confirmation that Wates are kindly supporting us to renovate the whole area this week. We are very lucky that they have chosen us and are volunteering their funds, time and efforts to transform our grounds, so our children can enjoy their outdoor learning safely.

As a result, for this week only, there will be no access to the lower playground from the left hand side of the school office. When dropping off and collecting your child, please go around the right side of the building (past the hall, staff car park and tech central) to reach the classroom doors. Nursery children will be dropped off and collected from the main school office.

We expect the work to last for around a week and we will be sharing the pictures of the transformation of the area.

Thank you for supporting us to keep everyone safe during these works.

Mrs Johnson
